A DETAILED VIEW

CORE UNITS

Follow safe work practices for direct client care (HLTWHS002)

This unit describes the skills and knowledge required for a worker to participate in safe work practices to ensure their own health and safety, and that of others in work environments that involve caring directly for clients. It has a focus on maintaining safety of the worker, the people being supported and other community members.

Facilitate the interests and rights of clients (CHCADV001)

This unit describes the skills and knowledge required to assist clients to identify their rights, voice their needs and concerns and realise their interests, rights and needs.

Coordinate services for older people (CHCAGE003)

This unit describes the skills and knowledge to provide services to an older person. It involves following and contributing to an established individual plan.

Recognise healthy body systems (HLTAAP001)

This unit describes the skills and knowledge required to work with basic information about the human body and to recognise and promote ways to maintain healthy functioning of the body.

Implement interventions with older people at risk (CHCAGE004)

This unit describes the skills and knowledge required to work in partnership with older people and their carers to implement interventions in the context of an individualised plan to reduce risk.

Develop and maintain networks and collaborative partnerships (CHCPRP001)

This unit describes the skills and knowledge required to identify networking and collaboration needs and develop formal and informal partnerships to enhance service delivery and improve professional practice.

Facilitate the empowerment of older people (CHCAGE001)

This unit describes the skills and knowledge required to respond to the goals and aspirations of older people and provide support services in a manner that focuses on improving health outcomes and quality of life, using a person-centred approach.

Provide support to people living with dementia (CHCAGE005)

This unit describes the skills and knowledge required to provide person-centred care and support to people living with dementia. It involves following and contributing to an established individual plan.

Facilitate individual service planning and delivery (CHCCCS006)

This unit describes the skills and knowledge required to contribute to the development, implementation and review of individualised support.

Meet personal support needs (CHCCCS011)

This unit describes the skills and knowledge required to determine and respond to an individual's physical personal support needs and to support activities of daily living.

Support relationships with carers and families (CHCCCS025)

This unit describes the skills and knowledge required to work positively with the carers and families of people using the service based on an understanding of their support needs.

Work with diverse people (CHCDIV001)

This unit describes the skills and knowledge required to work respectfully with people from diverse social and cultural groups and situations, including Aboriginal and/or Torres Strait Islander people.

Manage legal and ethical compliance (CHCLEG003)

This unit describes the skills and knowledge required to research information about compliance and ethical practice responsibilities, and then develop and monitor policies and procedures to meet those responsibilities.

Support independence and wellbeing (CHCCCS023)

This unit describes the skills and knowledge required to provide individualised services in ways that support independence, as well as, physical and emotional wellbeing.

Deliver care services using a palliative approach (CHCPAL001)

This unit describes the skills and knowledge required to care for people with life-threatening or life-limiting illness and/or normal ageing process within a palliative approach.

ELECTIVE UNITS

Provide or assist with oral hygiene (HLTOHC004)

This unit describes the skills and knowledge required to provide or assist a patient with their oral hygiene where the patient is unable to perform all or part of these tasks by themselves. The oral hygiene tasks for the patient are carried out within the framework of an individualised care support plan and within the workers designated role and responsibilities.

Work with people with mental health issues (CHCMHS001)

This unit describes the skills and knowledge required to establish relationships, clarify needs, and then work collaboratively with people who are living with mental health issues.

Provide support in dysphagia management (HLTAHA013)

This unit describes the skills and knowledge required to assist a speech pathologist to support clients participating in therapy programs to improve swallowing and/or to maintain independence in the management of dysphagia.

Units are subject to change at any time at Aged Care Training Services discretion.

OUR PROMISE
